

Cards for Cash Program Report
Board Meeting – April 14, 2019

The Cards for Cash Program got off to a very slow start in the New Year. February and April orders were placed but, we are definitely behind in our profits compared to this point in 2018.

Last year, the UCW purchased a number of cards to pay for the food for the Maple Syrup dinner but, due to unforeseen circumstances, this did not occur this year. A few regular card purchasers have been absent from church for a period of time and this has also impacted sales. This goes to show how important each card order is!

There have been a number of new gift cards added in the past few months. We now have access to Air Canada, McDonald's and iTunes gift cards.

Cards such as iTunes are perfect for teens, Millennials and adults who are hard to buy for as they can be used to purchase a wide variety of music, movies, TV shows and audiobooks.

I will continue to provide reminders in the church bulletin and through Meggin's announcements to ensure that people are aware of the dates for upcoming orders.

With the exception of Christmas and New Year's, orders go in on the first Monday of each month.
